**Ready-to-Cook Turkey Roast** is a boneless skin-on single lobe. Its unique marination contains carrots, celery and onions with less sodium than traditional roasts. Its small size allows for less time to thaw and cook. Unique cook-in-bag packaging reduces the chance of cross-contamination. Chef-inspired applications include carving stations, center-of-the-plate entrées and premium sandwiches.

**Ready-to-Cook Ground Turkey** has a natural rosemary flavor and is ideal for soups or burgers.
