*Federal regulations prohibit the use of hormones or steroids in pork and poultry.

**The chicken used in this product is fed a diet that contains non-genetically engineered ingredients. The USDA organic regulations do not permit the use of genetically engineered feed ingredients.

STAND OUT WITH SMALLER BIRDS THE ORIGINAL FOODSERVICE PREFERRED SIZE

Bigger isn't always better. That's why we're proud to offer PERDUE® HARVESTLAND® Organic in small bird form as well. Switching to small birds means you can create your signature dishes with the great taste, texture and tenderness that large birds—common in foodservice today—just can't match. And you can ease concerned minds knowing that you made the compassionate choice for improved animal welfare over large chickens.

Small Birds Offer:

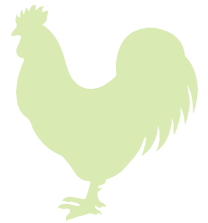

- ✓ Perfect portioning for:
 - In-demand whole and split entrées
 - Bone-in parts
- ✓ Natural fall-sized filets

SMALL
3 lb.*

MEDIUM
6 lb.*

LARGE
9 lb.*

A HIGHER STANDARD OF ANIMAL CARE

Animal care is very important. We put the welfare of our birds above all else—setting standards that exceed what the rest of the industry is doing. That means high-quality feed, clean water, fresh air, natural sunlight, outside access, better bedding and enrichments, plus the room to grow as nature intended. The results: happier, more active chickens; an ingredient story consumers care about; and great-tasting food.

USDA CERTIFIED ORGANIC • FREE RANGE • NO ANTIBIOTICS EVER™

We believe great-tasting dishes start with great ingredients. That's why we trust Harvestland to bring out the best in our recipes. Their free-range NO ANTIBIOTICS EVER™ chickens are raised on family farms on a 100% USDA Certified Organic vegetarian diet with no animal by-products.

FREQUENTLY ASKED QUESTIONS

- Are Harvestland® Organic chickens "organic"?
 HARVESTLAND® Organic Chicken is USDA certified, meeting all National Organic Program requirements. Harvestland® Organic Chicken is raised on certified organic farms fed only organic, non-genetically modified grains.
- Are your organic chickens antibiotic-free?
 At HARVESTLAND®, organic chickens NEVER receive antibiotics of any kind.
- Are your organic chickens fed 100% organic, non-genetically modified feed of corn and soy with absolutely NO animal by-products?
 Yes, we are.
- Is your organic chicken contains hormones or steroids?
 At HARVESTLAND®, organic chickens never receive hormones or steroids.
- What is the difference between organic and "natural" chicken?
 While organic, "natural" requires no certification and isn't necessarily indicative of animal welfare or health.
- Who is responsible for caring for your organic chickens?
 We care for animals and respect for the land go hand in hand with healthy eating. That's why Perdue Harvestland works with farm owners who truly appreciate wholesome, well-to-raised and care for our organic chickens.
